

**Core Objective: Personal Responsibility - ability to connect choices, actions and consequences to ethical decision-making**

		Step 1: Develop Assessment Plan				Step 3: Interpret Results, Analyze Information, Create Follow Up	
	Learning Outcome	FCA Course(s)	Assignment/Artifact	Assessment Method	Criteria for Success At least 70% of students will receive an evaluation of Excellent or Very Good in this learning outcome	Data and Analysis	Actions & Follow Up
1	Identify a situation in which ethical issues are present.						
2	Analyze the situation from more than one ethical perspective or framework.						
3	Explore the consequences and implications of decisions from life situations or theoretical scenarios.						
4	Recommend one or more actions that promise the "most ethical" behavior.						
5	Demonstrate ethical awareness by clearly linking ethical beliefs and behaviors.						
6	Consider how the context/settings informs the ethical issue(s).
