TITLE 3. HIGHER EDUCATION

SUBTITLE B. STATE COORDINATION OF HIGHER EDUCATION

CHAPTER 61. TEXAS HIGHER EDUCATION COORDINATING BOARD

SUBCHAPTER S. TRANSFER OF CREDIT

Sec. 61.822. TRANSFER OF CREDITS; CORE CURRICULUM.
(b) Each institution of higher education shall adopt a core curriculum of no less than 42 semester credit hours, including specific courses comprising the curriculum. The core curriculum shall be consistent with the common course numbering system approved by the board and with the statement, recommendations, and rules issued by the board. An institution may have a core curriculum of other than 42 semester credit hours only if approved by the board.

Sec. 61.824. INSTITUTIONAL EVALUATIONS. Each institution shall review and evaluate the institution's core curriculum and applicable field of study curricula at intervals specified by the board and shall report the results of that review to the board.

You and the Texas Core Curriculum

If you first enrolled at a Texas public university or college in Fall 1999 or more recently, your degree requirements include a General Education Core Curriculum. Every public institution in Texas has a Core, which is designed to provide a solid foundation for your college education and to make transfers between and among Texas institutions of higher education as smooth and seamless as possible.

How the Core Curriculum Works

Each institution's Core Curriculum applies to all academic degrees. They range from 42 to 48 credit hours, depending on the college or university. Each Core Curriculum is divided into 8 or 9 categories that are common across the state. If you take the approved Core natural science courses at institution A, they are annotated on your transcript with a Core code by A and must be accepted as fulfilling that portion of the Core at institution B or any other Texas public institution. If Astronomy is a Core natural science at A and is not at B, it must still be accepted at B. This is a whole new way of doing things because the school where you take the course decides how it will transfer. And that decision is binding on any Texas school to which you transfer.
Each public institution of higher education shall evaluate its core curriculum through the assessment of the core objectives on an ongoing basis, reporting the results of the assessment to the Board every ten years on the schedule that accords with the institution's accreditation reaffirmation self-study report to the Southern Association of Colleges and Schools or its successor. The evaluation and report must include:

(1) a description of the assessment process for each of the six core objectives;

(2) an explanation of measures, methodology, frequency and the timeline of assessment activities;

(3) the criteria and/or targets used to benchmark the attainment of the six core objectives;

(4) the results of the assessment, including evidence of the level of attainment targeted and achieved for each of the six core objectives;

(5) an analysis of the results, including an interpretation of assessment information; and

(6) any actions planned, including how the results and analysis of the assessment process will be used to improve student learning and achievement.

Texas Administrative Code

TITLE 19  EDUCA

PART 1  TEXAS HIGHER EDUCATION COORDINATING BOARD

CHAPTER 4  RULES APPLYING TO ALL PUBLIC INSTITUTIONS OF HIGHER EDUCATION IN TEXAS

SUBCHAPTER B  TRANSFER OF CREDIT, CORE CURRICULUM AND FIELD OF STUDY CURRICULA

RULE §4.28  Core Curriculum

(a) General.

(1) In accordance with Texas Education Code, §§61.821 - 61.832, each institution of higher education that offers an undergraduate academic degree program shall design and implement a core curriculum, including specific courses composing the curriculum, of no less than 42 lower-division semester credit hours.

(2) No upper-division course shall be approved to fulfill a foundational component area requirement in the core curriculum if it is substantially comparable in content or depth of study to a lower-division course listed in the Lower-Division Academic Course Guide Manual.

(3) Medical or dental units that admit undergraduate transfer students should encourage those students to complete their core curriculum requirement at a general academic teaching institution or public junior college.

(b) Texas Core Curriculum. Each institution of higher education that offers an undergraduate academic degree program shall develop its core curriculum by using the Board-approved purpose, core objectives, and foundational component areas of the Texas Core Curriculum.

(1) Statement of Purpose. Through the Texas Core Curriculum, students will gain a foundation of knowledge of human cultures and the physical and natural world, develop principles of personal and social responsibility for living in a diverse world, and advance intellectual and practical skills that are essential for all learning.
(2) Core Objectives. Through the Texas Core Curriculum, students will prepare for contemporary challenges by developing and demonstrating the following core objectives:

(A) Critical Thinking Skills: to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information;

(B) Communication Skills: to include effective development, interpretation and expression of ideas through written, oral and visual communication;

(C) Empirical and Quantitative Skills: to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions;

(D) Teamwork: to include the ability to consider different points of view and to work effectively with others to support a shared purpose or goal;

(E) Personal Responsibility: to include the ability to connect choices, actions and consequences to ethical decision-making; and

(F) Social Responsibility: to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities.

(3) Foundational Component Areas with Content Descriptions, Core Objectives and Semester Credit Hour (SCH) Requirements. Each institution's core curriculum will be composed of courses that adhere to the content description, core objectives, and semester credit hour requirements for a specific component area. The foundational component areas are:

(A) Communication (6 SCH).

(i) Courses in this category focus on developing ideas and expressing them clearly, considering the effect of the message, fostering understanding, and building the skills needed to communicate persuasively.

(ii) Courses involve the command of oral, aural, written, and visual literacy skills that enable people to exchange messages appropriate to the subject, occasion, and audience.

(iii) The following four Core Objectives must be addressed in each course approved to fulfill this category requirement: Critical Thinking Skills, Communication Skills, Teamwork, and Personal Responsibility.

(B) Mathematics (3 SCH).

(i) Courses in this category focus on quantitative literacy in logic, patterns, and relationships.

(ii) Courses involve the understanding of key mathematical concepts and the application of appropriate quantitative tools to everyday experience.
(iii) The following three Core Objectives must be addressed in each course approved to fulfill this category requirement: Critical Thinking Skills, Communication Skills, and Empirical and Quantitative Skills.

(C) Life and Physical Sciences (6 SCH).

(i) Courses in this category focus on describing, explaining, and predicting natural phenomena using the scientific method.

(ii) Courses involve the understanding of interactions among natural phenomena and the implications of scientific principles on the physical world and on human experiences.

(iii) The following four Core Objectives must be addressed in each course approved to fulfill this category requirement: Critical Thinking Skills, Communication Skills, Empirical and Quantitative Skills, and Teamwork.

(D) Language, Philosophy, and Culture (3 SCH).

(i) Courses in this category focus on how ideas, values, beliefs, and other aspects of culture express and affect human experience.

(ii) Courses involve the exploration of ideas that foster aesthetic and intellectual creation in order to understand the human condition across cultures.

(iii) The following four Core Objectives must be addressed in each course approved to fulfill this category requirement: Critical Thinking Skills, Communication Skills, Personal Responsibility, and Social Responsibility.

(E) Creative Arts (3 SCH).

(i) Courses in this category focus on the appreciation and analysis of creative artifacts and works of the human imagination.

(ii) Courses involve the synthesis and interpretation of artistic expression and enable critical, creative, and innovative communication about works of art.

(iii) The following four Core Objectives must be addressed in each course approved to fulfill this category requirement: Critical Thinking Skills, Communication Skills, Teamwork, and Social Responsibility.

(F) American History (6 SCH).

(i) Courses in this category focus on the consideration of past events and ideas relative to the United States, with the option of including Texas History for a portion of this component area.

(ii) Courses involve the interaction among individuals, communities, states, the nation, and the world, considering how these interactions have contributed to the development of the United States and its global role.
(iii) The following four Core Objectives must be addressed in each course approved to fulfill this category requirement: Critical Thinking Skills, Communication Skills, Personal Responsibility, and Social Responsibility.

(G) Government/Political Science (6 SCH).

(i) Courses in this category focus on consideration of the Constitution of the United States and the constitutions of the states, with special emphasis on that of Texas.

(ii) Courses involve the analysis of governmental institutions, political behavior, civic engagement, and their political and philosophical foundations.

(iii) The following four Core Objectives must be addressed in each course approved to fulfill this category requirement: Critical Thinking Skills, Communication Skills, Personal Responsibility, and Social Responsibility.

(H) Social and Behavioral Sciences (3 SCH).

(i) Courses in this category focus on the application of empirical and scientific methods that contribute to the understanding of what makes us human.

(ii) Courses involve the exploration of behavior and interactions among individuals, groups, institutions, and events, examining their impact on the individual, society, and culture.

(iii) The following four Core Objectives must be addressed in each course approved to fulfill this category requirement: Critical Thinking Skills, Communication Skills, Empirical and Quantitative Skills, and Social Responsibility.
