**Salary Computations are based on the specifications outlined in the CBM008 section of the THECB REPORTING and PROCEDURES MANUAL for Texas Public Universities - Fall 2007**

Salary Computations are as follows as printed in the THECB reporting Manual:

1. Sum the percent of time assigned for all appointments (Items #13A-13E). Do not include the percent of time of any flex-entry appointment.
2. Sum the salary amounts for all funds (Items #14A-X), excluding the overload (Item #14Z) and flex-entry (Item #16) salary items.
3. Divide the total percent of time assigned for all appointments (step 1) into the sum of all salary amounts (step 2), giving a full-time equivalent (FTE) salary for all appointments. Double this amount to yield a nine-month FTE salary amount.
4. Summarize the FTE salaries (results of step 3) of ONLY the faculty who have percents of time assigned to appointments 01 and/or 02.
5. Tally all faculty with appointment codes 01 and/or 02 where FTE salaries are greater than zero.
6. Divide the total faculty with appointment codes 01 and/or 02 (results of step 5) into the total FTE salaries of faculty with 01 and/or 02 appointments (results of step 4) to yield the average nine-month FTE salaries.
