Graduation Trends: Fiscal Year 2005 through Fiscal Year 2009
Report Published: October 2009

Note: This report consists of a 5 year graduation study based on the total degrees awarded for a Fiscal Year. The information present actual UHCL CBM-009 certified graduate data extracted from a PeopleSoft query for inclusion of each student's most current Academic Plan record to obtain school information and mean number of terms to receive degree. Data files used were: uhcbgraduation along with an OIE query merged to the uhcbcbm009 tables titled PEGGY_GRADUATION_CBM009TABLE. If variance exists when comparing these figures to other previously published reports, it is important to note that these data may follow a different methodology. Totals by school and classification have all been verified with actual certified THECB reports and the number of terms to complete degree were verified for accuracy by sampling individual student records and asking the UH CB programmer to verify variables - these data will differ from previously published reports. Degree is based on CIP code certified with the THECB. **Note: In some instances a cip code was given an additional digit at the end, in order to further aggregate the data (i.e. 51070100 to 510701002).** For questions please contact OIE. Thank you.

For Mean Number of Terms (to Receive Degree): The CBM009 Extract obtains the Completion terms from the Academic Degree table where the confer date is between the current and previous fiscal year and obtains the Required term from the most recent Academic Program up to the completion term. It then counts the number of terms between the required term and the completion term. Note that the 1st term the student entered the institution is the term chosen, regardless if the student dropped out for a term or more.

Four grad students had a level of degree of undergraduate and four undergraduate students were reported with a level of degree of graduate. One student was awarded a MS degree of Accounting Non-Degree Graduate.

For Mean Number of Terms (to Receive Degree): The CBM009 Extract obtains the Completion terms from the Academic Degree table where the confer date is between the current and previous fiscal year and obtains the Required term from the most recent Academic Program up to the completion term. It then counts the number of terms between the required term and the completion term. Note that the 1st term the student entered the institution is the term chosen, regardless if the student dropped out for a term or more.

Office of Institutional Effectiveness
Graduation Trends: Fiscal Year 2005 through Fiscal Year 2009
Report Published: October 2009

Note: This report consists of a 5 year graduation study based on the total degrees awarded for a Fiscal Year. The information present actual UHCL CBM-009 certified graduate data extracted from a PeopleSoft query for inclusion of each student's most current Academic Plan record to obtain school information and mean number of terms to receive degree. Data files used were: uhcbgraduation along with an OIE query merged to the uhcbcbm009 tables titled PEGGY_GRADUATION_CBM009TABLE. If variance exists when comparing these figures to other previously published reports, it is important to note that these data may follow a different methodology. Totals by school and classification have all been verified with actual certified THECB reports and the number of terms to complete degree were verified for accuracy by sampling individual student records and asking the UH CB programmer to verify variables - these data will differ from previously published reports. Degree is based on CIP code certified with the THECB. **Note: In some instances a cip code was given an additional digit at the end, in order to further aggregate the data (i.e. 51070100 to 510701002).** For questions please contact OIE. Thank you.
