International  
Facts at a Glance Summer  
2012 to Summer 2016  
October 2016

University of Houston-Clear Lake  
Office of Institutional Effectiveness  
Enrollment Management Trends: International Students  
Report compiled in October 2016

This report consists of a 5 year demographic study for Summer terms. The demographic data pages present actual UHCL certified data extracted from a PeopleSoft query for inclusion of each student's most current Academic Plan record. Student level data uses a CBM-001 extract and SCH information is derived from the CBM-001 student report as well. If variance exists when comparing these figures to other previously published reports, it is important to note that these data may follow a different methodology. Totals by school and classification have all been verified with actual certified THECB reports for accuracy. For questions please contact OIE. Thank you.

**Total International Students**

N = Actual number of cases; % = Column percent; n/a = not applicable

	Summer 2012	Summer 2013	Summer 2014	Summer 2015	Summer 2016	Summer 2012 vs. Summer 2016		Summer 2015 vs. Summer 2016	
						Chg.	% Chg.	Chg.	% Chg.
<b>Headcount:</b>	443	411	689	815	826	383	86.5	11	1.3
<b>SCH:</b>	2,273	2,337	4,386	5,120	4,547	2,274	100.0	-573	-11.2

These data are not aggregated by classification (graduate or undergraduate) because of the small cohort.

<sup>1</sup> Beginning Summer 2010 Ethnic groups were changed by THECB to: White, Black, Hispanic, Asian, American Indian, International, Native Hawaiian/Pacific Islander and Multi-racial

<sup>2</sup> First Time or Transfer students are recorded on the certified CBM-001 report and represent students entering the reporting institution for the first time but who have previously attended another postsecondary institution at the same level (e.g., undergraduate to undergraduate or graduate to graduate). This does not include an institution's own graduates who re-enter for further education. This variable does include graduate students who are accepted into a master's or doctoral program for the first time. A "No" for this variable would indicate a continuing or returning student.

<sup>3</sup> Residency represents the county, state, or foreign country of which the student is a resident as identified by the student as his/her permanent address at the time of application to the institution. This variable should not be used to identify how students are actually charged tuition as other factors are involved in that determination.

<sup>4</sup> Tuition status indicates the status of the student for tuition purposes. For Summer 2006 new measures were implemented to provide a greater level of accuracy for this variable. However, this variable is not a reliable indicator for how tuition may have actually been charged to students.

Note: Graph scales are automatically calculated by MS Excel

Note: Any CIP codes with no International Student Declared Majors for all 5 summer sessions were removed from the tables below.
