**Office of Institutional Effectiveness**  
**Academic and Support Services Assessment Fall 2017 Summary**

The purpose of the Academic and Support Services Assessment (ASSA) is to determine the level of satisfaction of all students concerning their experiences with academic and support services at University of Houston-Clear Lake (UHCL). The student's opinions are solicited regarding which areas or issues should be improved to ensure that UHCL maintains the highest quality of instruction. The percentage of students who would recommend UHCL to family or friends is shown on the next page.

The online Academic and Support Services Assessment is conducted in fall semesters using Qualtrics survey software. UHCL launched its annual survey to all students for the fall 2017 on October 16, 2017 and the survey was active through December 16, 2017. All students who were enrolled during the fall 2017 semester were sent an invitation to complete the survey. The data can be divided by college, by full-time/part-time, by degree level, by gender, by program or any of the above combinations. The average completion time for the survey is 10 minutes. A short summary of data collected in the Academic and Support Services Assessment by UHCL and by individual schools is contained in the following pages. The ASSA Fall 2017 Total UHCL without Comments report is posted on the OIE website at the link listed below:
