Graduating Student Survey Spring 2020 Summary

The purpose of the Graduating Student Survey is to determine the level of satisfaction of graduating students concerning their recent higher education experience at University of Houston-Clear Lake (UHCL). The graduating student's opinions are solicited regarding which areas or issues should be improved to ensure that UHCL maintains the highest quality of instruction. The percentage of students who would recommend UHCL to family or friends is included in the UHCL progress card each year and is shown on the next page.

The online Graduating Student Survey is conducted in fall and spring semesters using Qualtrics survey software. UHCL launched its semi-annual survey to graduating students for the spring 2020 on March 21, 2020 and the survey was active through May 31, 2020. All students who applied for graduation during the spring 2020 semester were sent an invitation to complete the survey. The data can be divided by college, by degree level, by gender, by ethnicity, by program or any of the above combinations. The average completion time for the survey is 10 minutes. A short summary of data collected in the Graduating Student Survey Spring 2020 by UHCL and by individual schools is contained in the following pages.

The final reports are posted online under Graduating Student Survey at:
