Important Information to Know Regarding Travel POs

A. Encumbering funds on a Travel PO must be done in the same fiscal year as the travel. Towards the end of a fiscal year, there are two additional scenarios that may occur:

1. If you have current fiscal year funds remaining and the travel is during September or October of the next fiscal year: You may encumber in the current year and use current fiscal year funds, but it must be encumbered prior to the second to last business day in August as PS Finance is not available on the last business day in August. Check the UHCL Year End Calendar for dates. Travel paid for with prior fiscal year funds can be for travel no later than October 31st.

2. Normally, during August, you can encumber next fiscal year travel with next fiscal year funds. Accounts Payable will send out a memorandum to inform CBAs/DBAs when new fiscal year encumbrances can be processed and will provide the instructions. (Contact the Travel Office if you need to reserve airfare or other travel related items for next fiscal year prior to August.)

B. The account codes in these instructions will be effective on Sept. 1, 2020.

C. Once a Travel PO has been approved and dispatched, an Encumbrance Adjustment form must be submitted to Procurement for:

   1. any adjustments to the encumbrance (dollar amount, cost center and/or account code);

   2. to cancel a PO; or

   3. to finalize a PO to release the encumbrance.

D. UHCL employees must have a PeopleSoft Finance Security Access form on file with General Accounting (PS Finance Security Access Form Instructions) with the proper access roles as determined below:

   1. Initiators should have access as a “Buyer” with the “Creator” role to create Travel Purchase Orders.

Initiator Instructions - Pages 2 – 19 - Creating and Reviewing a Travel PO and submitting for Approval

   2. CBA/DBA Approvers should have access as a “Buyer” with the “Creator/Approver” role to create and/or Approve Travel Purchase Orders.
