Honors:

My book Ethical Decision-making in School Administration was a featured selection at the annual meeting of the Association for Practical and Professional Ethics (2012) The organization has members from around the world and in every academic discipline. The organization also has federal and state appellate judges as members and a number of corporate compliance officers. Seven books are selected out of hundreds submitted. Featured authors are honored by separate lunches held in their behalf titled "Lunch with the author". A reception for the entire organization to honor the featured authors is held and book signing thereafter. The organization is just over twenty-five years old and my book was the first book in education ethics that was ever so honored by the organization.
