ANNOUNCEMENT- GREEN INFRASTRUCTURE STUDENT INTERN

Texas Community Watershed Partners (a part of Texas A&M AgriLife Extension Service, Texas A&M University) is seeking applications for a Green Infrastructure Student Intern. This intern will work primarily in an office setting on projects related to Green Infrastructure outreach and Watershed Planning efforts.

Responsibilities include organizing and planning meetings and workshops, assisting with meeting setup, website and social media updates, stakeholder outreach, and writing both technical and non-technical content.

Within TCWP's Green Infrastructure for Texas program, cross-training on related projects, such as freshwater wetland restoration and stormwater wetland construction projects will occur.

The Intern applicant must be a self-starter with a positive attitude and able to work collaboratively with staff and stakeholders. Applicants **must** be enrolled in a college or university with a degree plan in Biology, Natural Resource Science, Marine Science, Planning, Landscape Architecture, or a comparable field of study. Experience coordinating meetings and editing websites is preferred. Public speaking is required as well as writing and editing skills. A clean driving record is required.

For more information contact Charriss York at: cyork@tamu.edu

Send letter of interest, one page writing sample, and resume by e-mail only with the subject line TCWP GIFT Intern.
