Online QA Courses

Synchronous

- There are specific days & times when students MUST be logged in and active in the class. Examples include, but are not limited to:
  - Live lecture & class discussions in BB Collaborate or Zoom
  - Small group discussions or activities
  - Scheduled or Timed meetings or activities online in BB or Zoom

Asynchronous

- There are no specific days or times when students must engage with the class content. Students can complete their work at any time based on the course schedule outlined by the faculty. Examples include, but are not limited to:
  - Recorded lectures students can watch at any time
  - Participate in discussion board at any time during a week or period of time set by faculty
  - Watch documentary/review articles/read text and post reflection at any time (with due date set by faculty)
Bimodal

Course has F2F and Remote Instruction

BiModal means there will be some F2F time with the students and the remainder will be online in synchronous or asynchronous format. Number, frequency, and format of F2F sessions is determined by the faculty.

Face to Face

- Small groups, 25% or 50% of class, etc.?
  - Size of group
  - Schedule/rotation
  - Prepared to pivot to online if needed

  - Number of Meetings?
  - Record F2F session?
  - Livestream F2F Session... See Synchronous Remote Inst.

Synchronous Remote Instruction

- Live & scheduled interaction at times other than the F2F session. Examples include:
  - Study Sessions?
  - Group Activities?
  - Full Class Discussions of Content?

Asynchronous Remote Instruction

- Livestream during F2F time for the students who are not present? If livestream:
  - Need TA or Student Assistant to help?

- Other needs?

There is content/student engagement that happens in their own time based on course schedule determined by the faculty.
Remote Instruction
Course is 100% online but not through QA

Synchronous

There are specific days & times when students MUST be logged in and active in the class. Examples include, but are not limited to:
- Live lecture & class discussions in BB Collaborate or Zoom
- Small group discussions or activities
- Scheduled or Timed meetings or activities online in BB or Zoom

Asynchronous

There are no specific days or times when students must engage with the class content. Students can complete their work at any time based on the course schedule outlined by the faculty. Examples include, but are not limited to:
- Recorded lectures students can watch at any time
- Participate in discussion board at any time during a week or period of time set by faculty
- Watch documentary/review articles/read text and post reflection at any time (with due date set by faculty)
Here is a template to place your course information plans to share with your program and/or department chair.
