

# Return to Campus Decision Tree

All employees who can continue to perform the majority of their daily responsibilities remotely should continue to do so. As the county orders are modified and the University begins to resume on-campus operations, additional employees may be required to physically report to work given business needs (other than mere convenience or a desire for increased productivity). Consistent with county guidelines, most employees should continue to telecommute; in the circumstances of a return to campus being necessary, supervisors should use the guidelines provided in conjunction with the Decision Tree to assist in the decision making.
