MORE INFORMATION ON NAMING CONVENTION FOR APPENDIX IN WORKFLOW

In the Appendix, candidates place all additional materials supporting their request for tenure and/or promotion. A main goal of organizing your materials is to make it easy for reviewers to locate and read your information. The naming system created is so that if Workflow saves the entire packet, all documents are then organized alphabetically.

There are four separate appendices: General, Teaching, Research, and Service.

It is recommended to:

- Avoid having too many documents in one file as that makes it harder for reviewers to find information.
- Avoid large numbers of small files as reviewers then must open many files.
- Use summary tables. These summaries can be uploaded separately or with the documents they summarize.
- Title all files with a descriptive name.
- Make sure all documents relate to the college's criteria for promotion and/or tenure.
- Have each item in the Appendix referred to in the narrative.
- Note that Workflow does not support using PDF portfolios or Zipped files.

The documents in every Appendix will be different depending on college, department, and candidate evidence.

Naming Convention for Table of Contents:

1_9[Name of appendix][Number of document][descriptive title of document]

- **Name of appendix** designates the work area:
 - Appendix A: General should be listed as ageneral
 - Appendix B: Teaching should be listed as bteaching
 - Appendix C: Research should be listed as cresearch
 - Appendix D: Service should be listed as dservice
- **Number of document** is a two digit number starting with 01 and going up to 99
- **Example: 1_9bteaching04_Syllabus** for PSYC 4311 Social Psychology
 - Is in the teaching appendix
 - Is the 4th document in the teaching appendix
 - Contains the syllabus for PSYC 4311
- **Example: 1_9cresearch12_FRSF** 2019 grant
 - Is in the research appendix
 - Is the 12th document in the research appendix
 - Contains a copy of the FRSF 2019 grant
