**How Do I?**

Create a "Course List What If" Report

1. Once you have logged into E-Services and navigated to the Degree Progress Report request page, you will enter the same Report Type and click on the Course List Quick What-If button.

   *** A Course List What-If allows you to view how courses you have not taken may apply towards your current degree plan.

2. When you click on the Course List What-If button the Course List What If Analysis Page will display. Enter the Subject or it can be selected by clicking on the spyglass. **Click OK**
3. A course search page will appear. Scroll through the list to find the course you want to simulate in your degree plan. Click on the checkmark and then click Return.

4. The course selected will display. You can add additional courses by clicking on Add a Course. You can also delete courses from the list by clicking on the trashcan icon. Once all courses are entered, click OK.

5. The report will display in your browser. You will need to scroll through the report to find where the course will apply. It will appear with a notation indicating it is a what if course.
