

Delta Computing & Engineering Colloquium

Hosted by the College of Science & Computer Engineering

Monday, September 11, 2017

Delta 241, 11:30 a.m. – 12:30 p.m.

What Makes a Person a Cyber Security Expert?

Mr. Gregory Evans

Cyber Security Entrepreneur

We hear all the time about government agencies, big and small corporations getting hacked. For the last 3 years we keep hearing that China, Russia and North Korea was behind the hack. How could these countries keep getting away with hacking America asserts, when the United States of America have Cyber Security Experts with college dress in cyber security or certifications as a "Ethical Hacker"? Can a person learn how to become a cyber security expert by reading a book and taking a test? In this brief discussion Gregory Evans will prove that 99% of the people who have these degrees and certifications are not cyber security experts, and what makes a person a real cyber security expert.

Host: Dr. Charles Phillips

Refreshments will be served from 11:00 a.m. – 11:30 a.m.!
