

# Delta Computing & Engineering Colloquium

Hosted by the College of Science & Computer Engineering

Monday, September 25, 2017

Delta 241, 11:30 a.m. – 12:30 p.m.

**Boldly Facing the Most Daunting Challenges in any Industry**

**Mr. Olivier Germain**

**Halliburton**

Reset your perspective about the Oil & Gas: it may be one of the most exciting industries from a technical perspective, but the magnitude of its challenges is dwarfed by the ones faced by its subset, the PetroTechnical Software industry. In this talk, we will explore what those challenges are, and why, and see how we are responding to them, in essence combining cutting-edge technologies and practices more traditionally expected from Silicon Valley with rich science developed in the last thirty years.

**Host: Dr. Pradeep Buddharaju**

**Refreshments will be served from 11:00 a.m. – 11:30 p.m.!**

Contact Information: Dr. Ahmed Abukmail  
2700 Bay Area Blvd., Delta Building 169, Houston, TX 77058  
281-283-3888: Abukmail@uhcl.edu

Any person needing an accommodation for a disability to participate in this program should contact the sponsoring organization at (281) 283-3770 for necessary arrangements.
