

Internship 2018 -Safety Intern

Revised: 08/28/2017

Kaneka North America (KNA) is a chemical manufacturer located in Pasadena, Texas. We create specialty polymers and the food supplement CoQ10. KNA has five separate manufacturing units and employs more than 400 employees. We have been making products at this location for more than 30 years. KNA is a wholly owned subsidiary of Kaneka Corporation, a Japanese chemical company with plants around the world.

Position Type: Summer Internship

Job Title: Safety Intern

Job Description: The Safety Intern will support Safety, Emergency Response and Industrial Hygiene professionals in a wide range of projects. The selected candidate will assist in updating and validating safety standards, permits and incident reports as well as analyzing and identifying solutions. Additional responsibilities include closing action items pertaining to audit and incident investigation, writing procedures, data analysis and assisting with preventative maintenance of emergency systems.

The duration of the internship is 13 weeks running from May 15, 2018 to August 09, 2018.

A typical work week is 40 hours, M – F; however, hours worked may vary based on job demands and opportunities. Occasionally, nights and weekend work may be required based on plant or project demands.

Qualifications: Candidate must:

- Be a student majoring in an Occupational Safety related degree plan.
- Have completed a minimum of 3 Occupational Safety courses.
- Have completed a minimum of 60 hours of college credits by May 2018.
- Anticipate graduating with a Bachelor's Degree by May 2020.
- Be knowledgeable of the Word, Excel, and PowerPoint.

Salary Level: \$15/hr to \$19/hr based on experience and skills.

Location: Kaneka North America's Pasadena, Texas manufacturing facility.

Internship 2018 – Environmental

Revised: 09/11/2017

Kaneka North America (KNA) is a chemical manufacturer located in Pasadena, Texas. We create specialty polymers and the food supplement CoQ10. KNA has five separate manufacturing units and employs more than 400 employees, including more than 40 degreed engineers. We have been making products at this location for more than 30 years. KNA is a wholly owned subsidiary of Kaneka Corporation, a Japanese chemical company with plants around the world.

Position Type: Summer Internship

Job Title: Environmental Intern

Job Description: The successful candidate will work alongside experienced engineers and scientists in KNA's Safety, Health, Environment and Quality Department. Typical tasks will include preparing environmental training, work on wastewater volume and solids reduction, RCRA waste compliance work, air emissions calculations, compliance data management, completing various environmental reports such as deviation reporting.

Assignments will be based on project priorities and candidate's experience and skills.

The duration of the internship is 13 weeks running from May 15, 2018 to August 09, 2018.

A typical work week is 40 hours, M – F; however, hours worked may vary based on job demands and opportunities. Occasionally, nights and weekend work may be required based on plant or project demands.

Qualifications: Candidate must:

- Be a full time student majoring in Engineering or Environmental Science.
- Have completed a minimum of 60 hours of college credits by May 2018 including at least 3 courses in engineering and/or environmental science.
- Anticipate graduating with a bachelor's degree by May 2020.

Salary Level: \$15/hr to \$22/hr based on experience and skills.

Location: Kaneka North America's Pasadena, Texas manufacturing facility.
