

Zachry Group - Occupational Health/Industrial Hygiene Internship Opportunity

Zachry Group is America's pace-setter in turnkey construction, engineering, maintenance, turnaround and fabrication services to the power, energy, chemicals, manufacturing and industrial sectors. We work with customers to plan, build and renew their most critical facilities, so they can achieve their immediate and long-term goals, all at the highest safety standards. We operate 35 offices, and our 20,000 employees work in more than 400 locations nationwide, united by a shared set of values and the desire to deliver the very best outcome for our customers. Each year, Zachry Group joins with colleges and universities across the nation, to provide work experience that allows engineering students to apply classroom theories to the professional work environment. The Zachry Corporate Internship Program is currently seeking engineering students to fulfill intern roles within the following Zachry Industrial Incorporated (ZII) departments: Occupational Health/Industrial Hygiene and Safety.

All interns will be responsible for routine engineering and construction tasks within their department and on assigned projects. In addition to gaining knowledge from daily tasks and projects, interns will also be given opportunities throughout the summer to develop their soft skills and take on leadership roles. Specifically, to conclude the program, interns will each be given the opportunity to showcase what they've learned over the summer during their final presentations. There will be formal and informal opportunities such as this throughout the summer, which will help prepare students for their professional careers.

Internship Requirements:

- Must be enrolled in an accredited Engineering Program
- Pursuing a Bachelor's degree in Engineering
- Graduating between December 2018 and May 2020
- Hold a minimum 3.0 GPA (preferred)
- Interest in leadership & personal development opportunities
- Willingness to relocate for both internship and future full-time opportunities
- Available to work 40 hours per week from May 29 - August 10, 2018

Preferred Skills:

- Strong communication skills, both verbal and written
- Well-developed analytical skills
- High attention to detail
- Organization and time management skills
- Demonstration of professionalism
- Ability to take initiative on projects
- Proficiency with MS Office: Word, Excel, PowerPoint, Outlook
- Pursuing a Master's degree in Industrial Hygiene

To be considered for this program, students may submit resumes and cover letters to David Olvera, olverad@zachrygroup.com. Initial interviews will take place in January 2018. Final selections for the Corporate Internship Program will be made no later than February 2018.
