ENERGY EFFICIENCY DAY 2022 OCT 5

COME BY MAKE YOUR PLEDGE
11:00am - 3:00pm
Atrium I - Bayou Building

PLEDGE IDEAS

- Switch incandescent bulbs for LED lighting
- Increase my home thermostat by 2 °F
- Turn down the temperature on my water heater to 120 °F
- Close blinds and shades in my home during the day
- Skip the “heated drying process” in my dishwasher cycle
- Use cold water to wash my clothes
- Turn off unnecessary/idle lights, appliances, and electronics

ENERGY FACTS

- 80% of our ENERGY is from fossil fuels (Oil, Coal, Natural Gas)
- Carbon dioxide (CO2) and temperatures are rising
- Furnace Heating, AC, and Water Heating make up 46% of home electricity use
- Efficiency could provide one-third of total expected electricity generation needs by 2030
- Reducing annual electricity use by 15% nationwide would save more than six lives every day
